

EDWARD A. ANDERSON COMPANY

CLASSIC CRAFTSMANSHIP SINCE 1913

TRADITION

In business since 1913, Edward A. Anderson Company has one of the longest traditions of residential construction operations on the North Shore. With an office in Winnetka and a workshop in Wilmette, we are local and responsive to any need, at anytime, no matter how large or small.

Through four generations of family management we continue to uphold our founders' original inspiration. We employ only the best in skilled labor, use only the finest in proven building materials and adhere to the highest ethical practices both in our building methods and business conduct. These high standards and our passion for quality have become our hallmark.

We are not just carpenters and contractors. We are creative designers, craftsmen, historic renovators and people who together as one team work to bring creative ideas to life. We'll make sure your project is built to last the test of time.

We promise to deliver for you the highest quality construction, using the safest, most cost effective and expedient means possible.

Working with us you'll know you've made the very best choice.

WE ARE DEDICATED

Our creative team will work together to bring your ideas to life. We are committed to long-term relationships with vendors, trade partners and clients like you.

WE ARE QUALIFIED

We are highly experienced professionals and we know how to do things right, the first time.

WE ARE PARTNERS

We collaborate with you for a working relationship that will exceed your expectations every step of the way.

WE ARE LOYAL

You can trust us for guidance and support. We have an extensive group of expert vendors and subcontractors offering competitive pricing and loyal service for you.

WE COMMUNICATE

We take pride in our ability to communicate with you in a friendly, timely and knowledgeable manner. We avoid multiple layers of staff by empowering your lead-carpenter to be a decision maker and advocate for you.

ENJOY YOUR EXPERIENCE

Whether you work with us from design through completion or simply for construction, your experience will be a pleasurable one, free of frustration and worry during the process and a source of pride for years to come.
